SUMMARY

A fresh graduate of computer engineering specialized in system development and knowledgeable in the basics of computer related topics. Seeking to learn new things and gain experience within or outside of his expertise while achieving the goals and objectives of the company.

EXPERIENCE

Freelancer

OCT 2019 – PRESENT

- Developed the responsive landing page for the application according to the user stories using HTML5, CSS3, and JavaScript.
- Created the database schema (SQL) and API for retrieving the data from the application to the server.
- Implemented some improvements on the API which somehow minimized the processing time.
- Tasked to monitor, maintain, and backup the database.
- Developed a website, which displays the questions and the overall rankings of the participants with HTML5, CSS3, JavaScript, PHP, and SQL.
- Designed and implement manually the test cases and provide some of the recognized flaws and discrepancies within the assigned projects, mostly about UI/UX.
- Working as captcha solver with good reputation.
- Developed some web portfolios for clients according to their design and user stories using HTML5, CSS3, and Bootstrap.

EDUCATION

Tertiary

- Polytechnic University of the Philippines – Sta. Mesa, Manila 2018 – 2022
Bachelor of Science in Computer Engineering

Post-Secondary

- Polytechnic University of the Philippines – Sta. Mesa, Manila 2016 – 2018
Humanities and Social Sciences

Secondary

- Ramon Magsaysay (Cubao) Highschool 2014 – 2016
Science, Technology and Engineering Program
- Sorsogon National Highschool 2012 – 2014
Science, Technology and Engineering Program

Primary

- Maricrum Elementary School 2010 – 2012
- SEMB Integrated School 2006 – 2010

SKILLS

Soft Skills

- Attention to Detail
- Computer Literate
- Critical Thinking
- Flexibility
- Integrity

Technical Skills

- HTML5/CSS3
- PHP (Core)
- SQL (MySQL)
- JavaScript (Pure, React)
- C#

-
- Interpersonal
 - Organize
 - Patience
 - Problem Solving
 - Teamwork

- C++
- Microsoft Applications
- Git
- MongoDB

SEMINARS AND CERTIFICATIONS

Seminars

- RAISE 2022: Natural Language Processing
Polytechnic University of the Philippines
- RAISE 2022: Cloud Computing
Polytechnic University of the Philippines
- Technology Through and Thorough: SysDev
Crash Course 2022
Polytechnic University of the Philippines
- Introduction to Customer Relationship
Management 2022
Polytechnic University of the Philippines
- Traversing the Value of NFT: Crypto is more
than just 2022
Polytechnic University of the Philippines
- #USAPANGPrivaDo: Credit registry and your
data privacy 2022
Credit Information Corporation
- Code Like a Professional – Code Etiquette in
Game Development 2022
Polytechnic University of the Philippines

Certifications

- Responsive Web Design
freeCodeCamp
- Web Development Masterclass
Udemy
- JavaScript Algorithms and Data Structures
freeCodeCamp
- PHP Course
Sololearn
- SQL Fundamental Course
Sololearn
